PATIENTLY WAITING

Under the new tariff measure, clothing will be cheaper. You will be able to buy a ready-made suit from \$2 to \$6 cheaper than last fall. That ought to help reduce the high cost of living a trifle.—Arrow Rock Statesman, May 8, 1913.

We want to remind Editor Diggs that it's going to get very cold next winter and if he waits on Democratic promises to buy his suit he is likely to shiver a long time.

Coming in on the C. & A. Saturday the topic of all was of the heat of course. Mrs. G. F. Ledbetter remarked that she had waded in the snow the day before in the mountains of Colorado. Miss Josephine Jackson said it had rained hard while she was passing through Minneapolis the day before, and Jim Fisher, who can usually tell the biggest yarn, modestly admitted it showered on him in St. Joe. This world is very small indeed.

A young lady high school teacher not far from here is spending her vacation in a sensible and practical way by working out in St. Louis, thus learning housekeeping and earning at the same time. In writing to a Marshall friend she says she is fortunate in not having to make her living this way. In a way her work is pleasant and easy, but as an illustration of servant girl conditions, she says that she has a little spare time and seeing a late novel, asked permission of the lady to read it. She was told emphatically that her request was very unreasonable and that she should get her books at the public library. No wonder girls prefer to work in factories on starvation pay.

Speaking of the drouth, Ed. Zahm, one of Marshall's prominent farmers, says we are not hurt yet—at least not in comparison to a drouth he witnessed while in India during the great famine. He said he was making a trip around the world and had decided to cross India on his bicycle. He soon abandoned it though for the railroad. He said the country had had no rain for three years and everything was dried up and the heat similar to last week the year round. The terrible suffering he saw baffles description. He noticed some rubber or evergreen trees still green and women and children would climb into them, pick off the leaves and cook them to keep up life. The inhabitants were mostly skin and bones.

We have always favored peace in the party but we never favor it at the price of important principles. The fight between the Progressives and Republicans was fairly won by the Progressives and it should remain so. We do not favor keeping up the fight neither do we favor march-

Money to Loan.

I have money to loan at five and one-half per cent annual interest, with the privilege to the borrower of paying any part of principal at any time, and rebate the interest from date of payment.

These are liberal terms and if you want money, now is a good time to get it.

I furnish abstracts and perfect titles to all lands and town lots in Saline county. I have buyers for Saline county farms. If you have one for sale let me know about it.

ABIEL LEONARD, Marshall, Mo.

ing back to the Republican camp like a band of scattered sheep. The best way in our opinion would be to keep up the separate organizations and have each elect delegates to a peace conference with instructions to come to an understanding if possible and as far as we can see, there will be no obstacles. Persons who are perniciously active in stirring up strife for personal reasons should be given a "back seat."

OUR ANNIVERSARY.

On August 15th the editor entered upon his twelfth year at the helm of the Marshall Republican. We have seen the paper grow from an inferior to the leading place among Saline county newspapers and its influence has greatly decreased the political prejudice formerly existing in Saline.

In our work we have had the hearty co-operation of all Republicans and thousands of reliable Democrats, which we appreciate to the full. The Republican split last summer caused some of our best friends to turn against us and they are trying to harm the Republican. It is up to our loyal friends to stop them if they want to see the paper prosper and continue.

The eleven years of hard work was more than we could stand, so we succeeded in selling an interest in the paper and securing an able young newspaper man to assist us and by making some changes in the management we are now in a position to take life easy.

The changes in the paper have caused much talk, but so far have not affected the business in a financial way. If we find that our readers are dissatisfied in anything which can be remedied we will gladly have it done.

If we find that the editor is objectionable to a large element in the party, we will "abdicate" in a hurry and let some more able person have the place.

KILLED MONSTER SNAKE

Pat Hanley of Blackwater, with the assistance of one or two others, killed a monster rattlesnake at the Boiler bridge the latter part of last week. The snake was 13 feet long, had 37 rattles, and its head was 7 inches wide.—Pilot Grove Record.

SEPARATOR BURNS

A separator belonging to Porter Bros. of near Koping caught fire from the engine Monday on the farm of Presley Townsend near Postal and burned to the ground in a short time. A large quantity of wheat belonging to Mr. Townsend was destroyed also.—Nelson Record

H. C. Griffith, Hall Williams, T. S. McCutcheon, E. Griffith and A. B. McGee went to Marshall Friday in the former's car, where E. Griffith and A. B. Charles purchased a Ford car, and each returned in their own cars.—Nelson Record.

Born, to Mr. and Mrs. Victor Gunn, at their home near Miami, Mo., Sunday, August 3, 1913, a daughter.—Miami News.

The Chiswell boys completed their run of threshing Monday, finishing up this year at the Utz place. Immediately after putting the threshing outfit away, the boys sold it to Herman Kunze.—Miami News.

Mrs. Jas. H. Wheeler had the misfortune to tumble down the cellar stairs at the City restaurant early Tuesday morning and to sustain numerous painful bruises in the fall, although she escaped with no broken bones.

The door that closes the opening to the cellar is not swung on hinges, but fits smooth in the floor. It was not safely in place and when Mrs. Wheeler stepped on it, the door gave way letting her fall down the steps upon a pile of boxes and broken boards. A big bruise over the eye, a knot on the back of the head, and numerous bruises on the body were sustained in the fall.—Miami News.

Married—John Moore and Miss Mollie Neff of near Hardeman, were married in Kansas City Mon. morning. The groom we understand, is 19 and the bride only 15 years old. They returned Tuesday to the home of the grooms parents near Hardeman. The Statesman wishes them a successful life.—Arrow Rock Statesman.

The house belonging to Carlino Poindexter, colored, about a block from the Methodist church burned down last Sunday afternoon. The origin of the fire is unknown. Arden Harvey, who occupied the house said there had been no fire in the house for several days but as they were going in and out it is probable that it started from a dropped match or cigarette. The house, we understand, was insured but the contents were not. As dry as it was it was fortunate that no more was burned as there was no water to fight it with.—Arrow Rock Statesman.

L. H. Gilliam, Geo. O'Quest, Joe Swinney and J. W. Smith left Monday for a 1,000 mile drive in the Gilliam car to Canada. They go on a business-pleasure trip, the longest undertaken by Slater parties across the country in a car.—Slater News.

Joe and Walter Farrell have made a very extended tour of the great west during the several months of their absence. They visited every state in the west and northwest except South Dakota, and express themselves as wonderfully well pleased with their trip and the country visited, but have decided to again make Missouri their home in the future.—Sweet Springs Herald.

Rev. Kittner preached a farewell sermon in the old church building at Jimma last Sunday which had served them for sixty years. The church was over full. A great many had

come a distance to once more see the spot where they were baptized, confirmed, married and where they looked for the last time in the face of the departed. The old church was torn down Monday.—Sweet Springs Herald.

Mothers! Have Your

Children Worms? Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt its mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c.

THE POULTRY CAR

Uncle Sam's special egg and poultry refrigerating and demonstration car will leave Odessa on Saturday, August 16, and is due to arrive in Marshall on Monday, August 18th. The egg shippers and producers along the road already visited by the department of agriculture poultry shipping car have expressed themselves as highly pleased with the demonstrations given in their towns. At each stop, the specialists in charge of the car, Mr. H. C. Pierce and Mr. Jacoby, have tested, graded, chilled and packed without charge local eggs for the local shippers.

When the car reaches Marshall, it will be located on the side track most convenient to the town. The demonstrations will begin at 8:30 o'clock and continue until 4:30. The car will spend one day in this place.

The two department specialists on this summer tour will give special attention to eggs and their proper preparation for shipment. They will also give demonstrations to those especially interested in the most approved methods of dressing, chilling and packing chickens and turkeys for shipment to the New York and other distant markets.

Thousands of eggs will be candied according to the commercial standards and "fresh" eggs, "floaters," "blood-rings," "white rots," "black fote" and other grades will be exhibited. The demonstration in detecting "white rots" is said to be very important as many candlers confuse "white rots" with "fresh" eggs. The eggs will then be sorted by market standards of size, cleanliness of shell and condition of shell. These gradings will show exactly the standards now set by commission men in distant markets.

The eggs will then be put into the refrigerating rooms of the car, which will chill them to 40 degrees Fahrenheit in 24 hours. Eggs chilled in this way before being put into the ordinary refrigerator car do not deteriorate rapidly. Eggs packed warm in a refrigerator car do not get chilled properly for about five days during which time they undergo constant deterioration.

The chilled eggs can then be loaded in cars for shipment. The demonstrators will show the most successful plans of using fillers, flats and buffers, placing and number of nalls and the best way of storing cases in the cars. The eggs thus packed, the local owner will be free to ship to his market with the certainty that they started right from his warehouse.

All interested are cordially invited to attend. The car in itself is well worth seeing as it contains the principles of a thoroughly modern poultry and egg refrigerating plant operated by its own gasoline engine. It also provides its own electric lights so that the refrigerating rooms can be well lighted and night demonstrations can be held. This same car spent last season in Kentucky and shipped which followed its methods were able to ship turkeys for the Thanksgiving and Christmas trade in New York in such a way that they reached the eastern markets in prime condition in spite of the abnormally warm weather last autumn.

COMES QUICKLY

Don't Have to Wait For Weeks. A Marshall Illustration.

Waiting is discouraging. Prompt action pleases everybody. A burden on the back is a heavy weight. Hard to bear day after day. Lifting weight, removing the burden.

Brings appreciating responses. Marshall people tell of it. Tell of relief that's quick and sure. Here is a case of it:

Mrs. J. H. Simms, 544 Washington St., Marshall, Mo., says: "I procured Doan's Kidney Pills at Franklin's drug store a few months ago and used them for kidney complaint that had bothered me for months. I had a severe backache and the kidney action was irregular. The use of Doan's Kidney Pills gave me relief. This remedy has my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. Adv. (Aug 15)
